Mr. Charles Wilde  
BioGenesis Enterprises, Inc.  
7420 Alban Station Blvd., Suite B-208  
Springfield, VA 22150

Dear Mr. Wilde:

This is in reply to your request for compound authorization received on April 02, 1997 for your product BG-Clean 606 Floor & Tile Cleaner.

This product is acceptable for use in inedible product processing areas, nonprocessing areas, and/or exterior areas of official establishments operating under the Federal meat, poultry, shell egg grading, and egg products inspection programs provided that it is not used to mask odors resulting from insanitary conditions, and that any characteristic odor or fragrance does not penetrate into an edible product area.

Permission for the use of this compound on loading docks and other similar areas is left to the discretion of the inspector in charge of the establishment.

Acceptance of compounds by this Department is in no way to be construed as an endorsement of the compounds or of any claims made for them.

If any change is made in the labeling information or formulation, the authorization for use in official plants becomes void immediately.

Sincerely,

John M. Damaré, Chief  
Compounds Review Branch  
Facilities, Equipment, Labeling, and Compounds Review Div.
